

## 7. Water Issues?

- a. Headgate in box by Lowery's – Ross ordered a new one. Ross has the new head gate. Fix from last time is doing ok. Ross will find time to put in. Still waiting. 14-16ft deep. Going to need something longer than the backhoe to get things in and out. Need a crane for maybe an hour. Talk to Jared Hatch and get something set up.
  - b. Norman Baldwin – valve Ross wants to get going on that in the next couple of months. We will do it when the excavator gets to that part of the ditch. Need two 21" couplers, 21" bolted coupler. If he is going to use it this year, then Ross would be more concerned about getting it in this year. Kyle says that he would be farming it, and he's not too concerned about getting it done this year. Ross has a list of parts that it would take to get it installed. Norman was told that we would provide the T and the labor to get that put in. Ross did order a saddle that could go in place of a T.
  - c. Randy Flake – valve Need to dig down and see what size pipe. Randy will pay for parts.
  - d. Valve parts for ½ North – Need to check it when we finish E Snowflake and switch to Grass ditch
  - e. Chad Brimhall – leak in front of house. He knows that he will have to pay to fix it.
  - f. GPR – Ross wants to contact the people that made it so he can get trained on how to use it.
  - g. Box out on Concho leaking Ross is going to get down there while the ditch is empty.
  - h. East Taylor open ditch cleaning
8. Lake and pumping strategies – open/closed?
- Mormon Lake diversion – closed
  - Mormon Lake outlet – closed
